Please find below and/or attached an Office communication concerning this application or proceeding.

## Application No. O9/997,154 COLE, MICHAEL Examiner Brian R. Gordon 1743 --The MAILING DATE of this communication appears on the cover sheet with the correspondence address -THE REPLY FILED 10-4-04 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a nal rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in ondition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued

THE REPLY FILED 10-4-04 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. PERIOD FOR REPLY [check either a) or b)] a)  $\square$  The period for reply expires  $\underline{3}$  months from the mailing date of the final rejection. The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). 1. A Notice of Appeal was filed on \_\_\_\_\_. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal. 2. The proposed amendment(s) will not be entered because: (a) X they raise new issues that would require further consideration and/or search (see NOTE below); (b) they raise the issue of new matter (see Note below); (c) \( \square\) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or (d) \( \sum \) they present additional claims without canceling a corresponding number of finally rejected claims. NOTE: See Continuation Sheet. 3. Applicant's reply has overcome the following rejection(s): 4. Newly proposed or amended claim(s) \_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). 5. The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: \_\_\_\_\_. 6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection. 7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. The status of the claim(s) is (or will be) as follows: Claim(s) allowed: \_\_ Claim(s) objected to: \_\_\_\_\_. Claim(s) rejected: 64-67. Claim(s) withdrawn from consideration: \_\_\_\_\_. 8. The drawing correction filed on \_\_\_\_ is a) approved or b) disapproved by the Examiner. 9. Note the attached Information Disclosure Statement(s)( PTO-1449) Paper No(s). \_\_\_\_\_. 10. Other: \_\_\_\_

U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) 94

Continuation of 2. NOTE: Independent claim 67 has been amended to incorporate new requirements not previously considered. The chamber was not previously required to be sujected to vacuum environment, the sample plate was not previously positivelly rectied as an element of the invention. The frame and tray what not previous required to be thermaly conductive. Prior art specifying electrically conductive material would have met the limitation of the unamended claim. Furthermore the claim has been amended to positively recite the "sample plate" as an element of the device, however the "tray" has not been positively recited as an element of the invention. The claim is improper for the sample plate cannot be positively recited without positively reciting the plurality of trays indluiding a plurality of wells before the sample plate for a sample plate is supported on each tray. The claim should be amended to positively recite the plurality of trays. Furthermore, the whereby clause recites heat is transferred from the frame to the sample plates; however, the claim classifies the" frame and trays" as being thermally conductive. It appears as if the sample plate should also be incorporated in a manner to also be classified as thermally conductive for the heat is conducted to the sample plates.
